MASS CONVENTION

plements sold this year exceeds that of any other year in this neighborhood and we presume UNION DEMOCRACY Conservative Citizens of Indiana, mand TO CONSIDER THE CRISIS OF THE

COUNTRY.

In compliance with the generally expressed wish of the Democracy of Indiana, the true friends of Constitutional Liberty, the Democratic State Central Committee invite the people of the State, without regard to past party affiliations, who desire to "preserve the Constitution as it is, and the Union as it was," to meet in

MASS CONVENTION

Indianapolis, on Wednesday, the

30th day of July. The object in assembling the people at this time is to take into consideration the new issues which have recently been forced upon the country by the party in power-measures which have no warrant in the Constitution, and which are opposed to the spirit and purposes of our institutions: while, in the language of President Polk, exists," to insist that its prosecution shall be confined to the policy solemnly set forth by Congress in July, 1861, that it is "not waged in the spirit of conquest or subjugation, nor for the purpose of overthrowing or interfering with the rights or institutions of the States, bu, to defend and maintain the supremacy of the Constitation, and to preserve the Union with all the dignity, equality and rights of the several States unimpaired," and to assure the Administration that a generous support will be given it, as the representative of the Government, in all necessary, prompt, and vigorous measures to overthrow armed rebellion against the Union, to suspatrick, deceased, and Capt. H. Laming to be tain its legitimate authority and crush out Aboli tionism, which is equally hostile to the Constitution as Secessionism.

The Committee are impressed with the necessity of the People assembling en masse at the time proposed, for the following reasons:

ly so called "Union" Convention held in this State, have failed to announce what are the lerebellion, and one and all have refused to even censure, much less condema, the disunion schemes of the Abolitionists:

2. The so called Republican-Union Convention failed to repudiate the gross frauds and corruptions proven upon the party in power by Congressional investigating committees of its own appointment: 3. Congress has adopted measures, such as the

abolition of slavery in the District of Columbia, which, if constitutional, are ill-timed and unnecessary and calculated to create distrust in the minds of the loyal citizens of the border slave States, and the country generally, as to the designs of the Administration;

4. It has proposed to tax the people of the whole Union to pay for the slaves that States may see proper to emancipate, thus throwing additional burdens upon the productive industry of the non-slaveholding States, at a time, too, when every interest is called upon to contribute all in its power the means necessary for the prosecu-

5. It has encouraged wild schemes of negro philanthrophy; establishing free schools for the education of the blacks, supporting runaway negroes in idleness, and in agricultural experiments with negro labor, all at the expense of the

6. And in proposing and adopting general schemes of emancipation and confiscation, in clear violation and derogation of the Constitution, inconsistent with the declared policy of the Government solemuly set forth by Congress in July, 1861, against the dictates of humanity and sound political economy, thereby "impairing the dignity, equality and rights of the several States."

In order that the People, the source of power in all constitutional governments, who sincerely desire to perpetuate the Union, as founded and administered by our patriotic fathers, may have the opportunity to condemn these unconstitutional measures; to express their sympathy and their determination to support the Administration in every legitimate effort to crush out treason, "where'er it may rear its head;" to "defend and maintain the supremacy of the Constitution," and to uphold the rights and institutions of all the States unimpaired; to say to those in authority, the servants of the people, what are the legitimate and appropriate means to put down this rebellion; to condemn fraud and corruption and all unconstitutional, illegitimate and unnecessary measures, calculated to weaken instead of strengthening a love and respect for the Union; to restore a wise, just, pure, equal and beneficent ad ministration of the Government, such as the people desire; and to renew the pledge unide by the last Democratic State Convention in behalf of the Democracy of Indiana, "That we will sustain, with all our energies, a war for the maintenance of the Constitution, and of the integrity of the Union under the Constitution; but we are opposed to a war for the emancipation of the negroes, or the subjugation of the Southern States," the Democratic State Central Committee, now ask FRIHE proprietors of the "PARISIAN CABINET OF

them to assemble in mass convention. All who desire to see the stars and the stripes float over every inch of American soil in liberty, fraternity and equality; all who insist that the Government shall have a fixed policy in the prosecution of the war, known to the whole country; all who sympathize with the sixty thousand sons of Indiana who have volunteered and are in the field to defend and maintain the Constitution and the Union, and who wish to see them relieved from their arduous duties and exposure of health and life in defense thereof, by a prompt suppression of the rebellion and the restoration of the Union not only in name but in essence; all who wish to preserve constitutional liberty, and the integrity of the Government under the Constitution, are invited to attend the proposed Convention and co-operate in the attainment of

these objects. While the gallant and patriotic Union men of Kentucky, and other border slave States, have devoted their efforts to preserve the Government as our fathers made it, will not the citizens of Indiana aid, by their counsels and their votes these patriotic citizens in repelling and rolling back the tide of Southern and Northern treason to the Constitution and the Union? For such a purpose we should assemble, and for such a purpose we should, as we do, invite the co-operation

of all good citizens. Eminent speakers, true and tried patriots, from adjoining States, have been invited and may be expected to address the Convention upon the momentous issues of the day.

By order of the Central Committee. GEORGE MCOUAT, Chairman.

MEMPHIS, June 30.-The Avalanche this morn ng has an editorial, based upon information from well informed sources in the South, stating that a new ptogramme has been determined upon by the Southern leaders, who, nothing abashed by past discomfiture, are moving themselves for a tremendous effort.

The leaders consider that the territory recently given up has weakened the North, and correspondingly strengthened the South. They expect to hold Richmond and Virginia, but if they Accumulation, \$1,200,000 are forced to yield them, they have no idea o giving up, but will fight to the last, and when they can fight no longer, instead of having their property confiscated and them e'ves disfranchised, they will make a direct proposition to France and England to become a colony or appendage. If this alternative is forced upon them, they will aim to become the subjects of Napoleon, rather necessary. Previous to leaving the city for the than of England.

The Avalanche gives the above as the almost certain policy of the Confederate leaders, and as Dr. Fowlkes is known to be one of the best informed persons in the South, considerable credit
